REAL ESTATE, ETC.

FARM FOR SALE!

THAT VALUABLE TRACT OF LAND, situated in Sacramento county, four miles from Folsom, on the line of the S. V. R. R., and six miles from Antelope Station, on the line of the C. P. Railroad, containing 440 ACRES; all cleared and fenced, and in grain, except 90 acres, which is in summer fallow; abundantly supplied with water and wood; water for irrigating and raising alfalfa and fruits; also, Farming Implements, including two Header Wagons, with beds, Seed Sower, Ploughs, etc., will be given to the purchaser. For information, terms, etc., inquire of J. S. MEREDITH, Drugstore southeast corner Second and K streets, Sacramento. ap8-tf

Still Another FOR SALE.

WE ARE SUBDIVIDING A TRACT —OF— 455 ACRES!

Two Miles East of Loomis, Placer Co.,

TO BE KNOWN AS THE

"Hickey Tract!"

A LARGE PORTION OF THIS TRACT IS rich bottom land, and almost all of it has been cleared. IT CAN BE ALL IRRIGATED—the ditch being only a short distance off.

The producing qualities of this section needs no encomium from us, as the Orchards and the Fruits produced thereon, adjoining the Tract and in this vicinity, speak for themselves.

The size of the Tracts will be 20-acre Lots and upwards. Prices according to selection.

For Citrus Fruit the Land has no superior.

The Land being cleared adds from $15 to $25 per acre to its value, besides the time and hard work it takes to clear it.

TERMS: One-third Cash; deferred payments at 6½ per cent. interest per annum, purchaser paying Taxes upon Land.

The proprietor will always be upon the property, and will take pleasure in showing it; or will meet anyone at the Depot, and convey them to the Land, free of cost, after APRIL 1st.

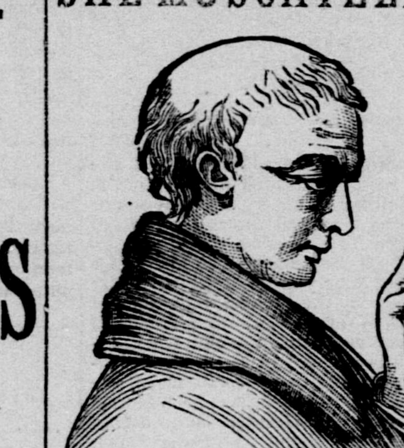
MISCELLANEOUS.

THE GRAPE CURE, SAL-MUSCATELLE,



A NATURAL Sick Headache and Dyspepsia Cure IN AMERICA,

The crystallized salts, as extracted from grapes and fruit, a most wonderful product from Nature's laboratory. Have it in your homes and travels—a specific for the fagged, weary or worn out. It cures sick headache, dyspepsia, stomach and bowel complaints; removes biliousness, stimulates the liver to a healthy action, counteracts the effects of impure water and the excessive use of alcoholic beverages, and prevents the absorption of malaria. Supplies to the system the want of sound ripe fruit.

Prepared by the LONDON SAL-MUSCATELLE CO., LONDON, ENGLAND.

Beware of imitations. The genuine in "blue wrappers only."

Send for circulars to G. EVANOVITCH, General American Manager, P. O. Box 1968, New York City. Mention this paper.

WORK OF THE WINDS.

DISASTROUS RESULTS OF THE GREAT CYCLONE.

Additional Details—The Killed and Wounded—Missouri Visited—Bodies Recovered.

[SPECIAL BY TELEGRAPH TO THE RECORD-UNION.]

ST. PAUL, April 14th.—The reports of the cyclone at St. Cloud, Sauk Rapids, Rice Station and other points in that vicinity last night, were not exaggerated. At 3 o'clock this morning, in those places, there were 49 dead and very nearly 200 injured, with many still missing. All the bodies will probably be removed to-night. Just enough houses are left in Sauk Rapids to form a ring around the village limits. The debris is not piled in heaps, but scattered far and wide. The sign "Sauk Rapids" and a basketful of books were found in River Station, several miles distant. This shows the terrible power of the storm. No reports were received from the outlying districts, where it is believed great destruction of property and loss of life has been wrought.

AID FOR THE SUFFERERS.

ST. PAUL, April 15th.—The City Council this morning voted $5,000 in cash to aid the cyclone sufferers, and Governor Hubbard dispatched a carload of provisions to Sauk Rapids. The car was accompanied by a committee of the Jobbers' Union, who will offer all the assistance in their power. Dr. Dersloa, who, with others, went last evening by special train to St. Cloud, returned this morning. Upon reaching St. Cloud he said physicians from St. Paul and Minneapolis divided, part going to Sauk Rapids. Dr. Dersloa was on the force sent to St. Benedictine, the Sisters' Hospital, and they were kept busy until 3 o'clock this morning. Twenty-five injured are in the hospital alone, and he does not know how many more are cared for in private houses.

ESTIMATES OF LOSSES.

ST. PAUL, April 15th.—Revised estimates of the killed and wounded are: St. Cloud, 15 killed, 40 injured; Sauk Rapids, 30 killed, 100 hurt; Rice's Station, 22 killed, unknown number injured.

THE LIST OF KILLED AND WOUNDED GROWING.

ST. PAUL, April 15th.—New bodies are being recovered hourly from the debris, and being brought in from the country in the track of the tornado. Twelve injured people have been brought in. Several of these will die. Four have died of their wounds since morning. At a church east of Rice's, thirteen of a wedding party were killed, including the officiating minister. At Sauk Rapids, 31 are already dead, and the list will be swelled to 40. At St. Cloud, at least 30 deaths can be traced to the result of the visitation there.

THE HORRORS AT SAUK RAPIDS.

SAUK RAPIDS, April 15th.—The dismal work of searching for the dead among the debris of this storm-swept section still continues, and the recovered remains, blackened and mangled, are being shrouded for the grave, while the wounded are receiving every possible attention. Physicians from neighboring cities are still on duty, tireless in their efforts. As the returns come in from the country, in the track of the tornado, new fatalities are discovered, and other cases of the maimed are being brought in for treatment. No pen can depict the horrors of the scene. The final muster of casualties will surely swell the total of fatalities to 100, and the wounded to over 100.

Fatal Blow in Missouri.

SKIDMORE (Mo.), April 15th.—A fearful cyclone passed over Monroe township, Nodaway county, last evening, destroying dwellings, barns, outhouses and killing a thousand dollars' worth of stock. Three persons were killed and many injured. Many of the wounded are not expected to live.

PRESS EXPRESSIONS.

Concerning the Phase Presented by the Striking Knights.

But while aiming to protect their rights and advance the interests of their members, they must remember that the rights and interests of others cannot be [illegible] without weakening their efforts in [illegible] ing the progress of the cause of [illegible].—[N. Y. Tribune.

Jay Gould appears to have [illegible] destroy the Knights of Labor. H[illegible] in time that such organizations [illegible] greatest safeguards for the conservative a[nd] reasonable conduct of such disputes as the present. In his war upon them, he will doubtless be pleased to know that he has the support of the Anarchists, who declare that "the Knights of Labor are as bad as the State."—[S. F. Post.

Not the least significant feature of the present labor trouble is the fact that the railroads have easily found thousands of men willing and anxious to take the places of the strikers. This would surely not be the case if it were true that these corporations treat their employes so badly that the self-respecting laborer cannot afford to work for them except under conditions of his own making.—[St. Louis Globe-Democrat.

The blood shed at Fort Worth puts a new phase on the whole contest. Life must be protected, property must be protected, the great highways must not be obstructed. About these questions there is no difference of opinion, and no room for any difference of opinion. Lawlessness must be suppressed, and those who engage in it must be punished. It is not possible in America to create, in any manner whatever, an organization strong enough to openly defy the law, or to shield the violators thereof.—[Courier-Journal.

What a help to all the civil authorities it would be, if an organization representing the interests of all labor should instantly order men back to their work, and terminate any strike, whenever lawless violence was employed to aid that strike. Considering these things, employers who have objected to any organization of the workingmen may reconsider their opinion. A wisely conducted organization, clothed with power enough to enforce its orders, might be a blessing to the men and the country.—[New York Tribune.

SAN FRANCISCO ITEMS.

The boycott of the *Call* and *Bulletin* has been formally declared off, all differences among the printers having been adjusted.

The assault to murder charge against Mrs. Hattie Levison, who shot and wounded her husband on February 22d, was dismissed Thursday morning in the Police Court.

The jury in the case of Frank Fabre, who fatally stabbed William Lewis on last New Year's day, after an hour's deliberation brought in a verdict, finding defendant guilty of manslaughter.

Concerning the rumor that the Lick House is to be sold for $1,250,000 and then enlarged, officials of the Lick trust say that was the price set on the property, but as yet no offer for it has been received.

William Irvine has sued James G. Fair to recover $15,190, alleged to have been paid for the defendant as assessments on 4,998 shares of the Morgan Mining Company, and which has never been reimbursed to plaintiff.

The police believe they have found one of the perpetrators of the murder of Wm. High, whose body was found in Golden Gate Park last week. The suspected man is at present confined in the Oakland city prison under the name of Fred. D. Whitney, on a charge of obtaining money under false pretenses. Though nothing definite has been found to implicate him, many suspicious circumstances have been discovered which point to him as the possible culprit.

A SPORTSMAN'S VIEWS

On the California Fish Question—Our Laws Inadequate.

Ramon E. Wilson, one of the Directors of the California State Sportsmen's Association, writes as follows from San Francisco to Hon. A. B. Dibbie, Secretary of the State Board of Fish Commissioners: "I desire to acknowledge receipt from you of a copy of the RECORD-UNION of the 1st of March, containing proceedings of Fish Commissioners' meeting, to thank you for sending me the same and to say it gave me great pleasure to read it. It is really a matter of regret that you should lose the services of Mr. Jones. He has been a faithful and efficient officer. Very few appreciate the importance of your asking Congressional aid in the matter of preventing the exportation of dried shrimp and fish. I am glad you are seeking assistance in that direction. I suppose there is no gainsaying the fact that the Chinese fishermen do more toward depleting the food supply of fish by catching and drying the young than all other causes combined. I have felt for a long time that the good work being done by your Commission would go for nothing, if this matter is continued much longer. I sincerely hope you will be successful in securing the aid desired. I am not much in sympathy with your movement in regard to carp, probably because I do not know anything about them. I had supposed, and I think it is the general impression, that they are a mud fish, and not very palatable. They are certainly not a fish that an angler would be interested in. If they are a food fish, of course their propagation for that purpose is all important. In regard to bass I am glad you are going to experiment with them. Judging from past experience, it would seem doubtful whether your experiment would be a success, if the fish are placed in the rivers. I understand your predecessors some years ago put a number of bass in Russian river, but that nothing has been seen or heard of them since. I believe, too, that somebody put bass into Napa river some two or three miles above the city of Napa, and above tidewater, but that nothing has been heard of them. I know of no stream in the State more favorably advantageous for that purpose than Napa river. I do not believe that bass and trout are calculated to live together in the same waters. The bass is a pugnacious fish, and by reason of the sharp-pointed dorsal fin is more than a match for the trout, especially anything under say from six to eight ounces. In placing the bass, I hope the Commission will take this into consideration. In regard to the violation of the fish laws, especially as to trout, I am satisfied there is a great deal of it going on, especially in the counties adjacent to the cities. So far as getting any assistance from District Attorneys is concerned, my experience is that it is hopeless. Our laws are sadly deficient; but I hope, with the co-operation of your body, we will be able to remedy some of the defects. I am satisfied that a great deal of fishing is done during the months of January, February and March, and that a great many trout are caught during those months under the guise of salmon fishing, and that the fish caught are salmon or grisle, and again, under the guise of fishing in tide water, it being claimed by many that that right continues all seasons of the year. With your permission, I would at some later day be pleased to express my views further on the subject of fish protection. I do not believe existing laws are equal to the prosecution of such a case."

PATRICK EGAN.

He Presents Five Serious Objections to the Home Rule Bill.

[Special Dispatch to the RECORD-UNION.]

NEW YORK, April 15th.—Patrick Egan, President of the Irish National League of America, says: "There are five serious objections. First, the veto power conferred on the two Chambers, empowering either to tie up the action of the other on any particular question; second, the proposal to confer seats in the upper Chamber on twenty Irish peers is repugnant to modern ideas of free representative government, as is also the proposed $20,000 property qualification for each of the other seventy-five members of that body; third, the retention of the control of the constabulary in the hands of the Lord-Lieutenant will still be a barrier to the establishment of peace and good-feeling; fourth, the keeping of the control of customs and excise in Imperial hands; fifth, the proposed contribution of $10,000,000 annually to the Imperial exchequer is too high."

THE NEW RAILROAD.

Work Begun on the Newhall End of the San Miguel Branch.

[S. F. Post.]

"When will we begin work?" said Colonel Chas F. Crocker when asked about the new line from San Miguel to Los Angeles this morning; "why, we have already begun, and a construction force is at work at Newhall, and the men now at work on the Yosemite branch are being sent down there as fast as they get through, and before the week is out will nearly all be at work on the new line. Then as soon as we can take our large and efficient repairing force off the Los Angeles division, they also will be put to work on the Newhall branch."

"When do you expect to finish the line?"

"That is impossible to say," replied Colonel Crocker. "While the general route is laid out the lesser surveys have to be made. I mean that at present we do not know which side of a canyon to take; where to put bridges, and all the details of the work, levels, cuttings, etc., have yet to be decided on. But you can say that the road will be built as soon as practical. There is no doubt about that—the only doubt is about the details, choice of passes. We have a large force of surveyors now in the field, and another strong force, under Mr. Storey, is fitting out to supplement their work."

"Is the right of way all secure?"

"Oh, I don't think there will be any trouble about that. The people down there have assured us time and again that we should have no trouble about right of way. The large land-owners and merchants of San Luis Obispo and Santa Barbara have taken that matter in hand, and undertaken to see that the needed right of way was placed at our disposal. In fact we have seldom met with trouble about that matter in our railroad enterprises."

Colonel Crocker was in some doubt about the exact route, but, from the maps, the *Post* reporter found that the line was positively to be built from Soledad down to Mission San Miguel, which is distant eighty-seven miles from Salinas City. From San Miguel southwest to San Luis Obispo, thence due south to the Santa Maria river, thence southeasterly toward the Sierra de San Rafael, turning in the middle of Santa Barbara county southwesterly toward Santa Inez Rey, thence southeasterly along the coast to the Rio Buenaventura, and from there striking southeast in a right line to Fernand's Pass, where it meets the Los Angeles division of the Southern Pacific.

WASHINGTON.

CHAIRMAN BELMONT AND THE CHINESE BILL.

The Civil Service—Secretary Manning—Senator Hearst and the Mare Island Navy Yard.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

Belmont Trying to Put off the Chinese Bill.

WASHINGTON, April 15th.—Chairman Belmont of the House Foreign Affairs Committee is very anxious that Representative Morrow shall agree to have his Chinese bill set aside, in order that Belmont's Chinese indemnity resolution shall be given preference. Belmont says if Morrow will do this, he will personally see the Chinese Minister and arrange with that functionary for such a modification of the present treaty as will make it more binding in its effect. Morrow told Belmont flatly that he would agree to nothing of the sort. His (Belmont's) proposition, he said, was chimerical, inasmuch as Congress alone could remedy the difficulty. Moreover, the people of the Pacific coast cared little for the indemnity resolutions. It was a stricter enforcement of the law regarding the Chinese that they were interested in. It is expected that a lively fight will occur in the Foreign Affairs Committee to-day, the more particularly as Belmont is determined to have his own way in the matter, if possible.

Outlook for the Chinese Bill.

WASHINGTON, April 15th.—The House Committee on Foreign Affairs considered to-day the Chinese question, but reached no definite conclusion thereon. The entire matter was laid over till Tuesday, when a vote will be taken. It can be safely said that the Morrow bill will pass with no material amendment, except that ten years' exclusion will be substituted for twenty, as is now proposed. The California delegation have been untiring and persistent in their efforts to obtain action on the bill, and to-day both Morrow and Henley made brief arguments. The proposition to pay indemnity to the Chinese for the Rock Springs massacre will be reported favorably, but unless this measure is accompanied by a bill restricting Chinese immigration, the indemnity matter will be bitterly fought by the Pacific slope delegation, who will gain recruits elsewhere to defeat the indemnity bill. It is the intention of the committee to bring in both bills at the same time, and thus pacify all interests.

That "Insult" to the Chinese Embassy.

WASHINGTON, April 15th.—Assistant Secretary of State Porter says that he has no information as to the statement that the Chinese Minister has demanded the removal of the Collector of Customs at San Francisco. The Minister has acknowledged the receipt of the Collector's explanation, and it is the impression that no further action will be taken until the arrival of the new Minister and his suite. "I am convinced," said Governor Porter this afternoon, "that the new Minister would not come to Washington at this time if he thought he had been seriously affronted, and intended to make the action of the Collector a cause sufficient to create an unfriendly feeling between China and the United States."

Chang Deilsen, of the Chinese Legation, says his Government will not take any further steps regarding the treatment of the new envoy by the San Francisco customs officers. He says that Collector Hager's report was intended to mislead the State Department; that the new envoy was detained, and that it now remains for the United States to determine whether or not the officer should be punished.

The Hawaiian Treaty.

WASHINGTON, April 15th.—The House Committee on Ways and Means to-day decided, by a vote of nine to one, to report favorably the resolution recommending the abrogation of the Hawaiian treaty. Messrs. Morrison, Mills, Hewitt, McMillan, Harris, Breckenridge of Arkansas, Mayberry, Kelly and Hiscock voted in favor of the resolution, and Representative Breckenridge of Kentucky cast the negative vote.

The Willamette River.

WASHINGTON, April 15th.—There is an important clause in the river and harbor bill which Senator Dolph hopes to turn to the advantage of freighters who use the Willamette river. The clause is as follows: "The Secretary of War is hereby directed to ascertain which and how many, if any, of the navigable streams within the jurisdiction of the United States have been and are now improved by locks and dams, or either, or by other improvements, either by the States, or by coporations in pursuance of State authority, and upon which streams and for the use of which improvements tolls are charged, and whether said improvements can be purchased or condemned by the United States; the probable cost of each of said improvements, together with the probable benefit to navigation and commerce of such purchase or condemnation, when made with the view of making the navigation of such streams free, and report to the next Congress." There are locks in the Willamette river at Oregon City, and the intention is to get the Government to purchase these locks.

Senator Hearst and Mare Island.

WASHINGTON, April 15th. — Senator Hearst, in company with Representative Henley, had an interview with Secretary Whitney, yesterday, regarding the Mare Island Navy Yard. Senator Hearst desired that all naval work on the coast shall be done at the yard instead of letting it out at contract.

The Civil Service Law.

WASHINGTON, April 15th.—From a memorandum prepared by one of the Civil Service Commissioners, it appears that, exclusive of the army and navy appointments, 4,043 appointments are subject to confirmation by the Senate. Of these, there are under the Department of State, 803; Treasury, 363; Interior, 364; Postoffice Department, 2,252; and Department of Justice, 261. The whole number of civil employes under the Government is about 110,000, of which 52,632 are Postmasters. The total number of places subject to civil service examination is about 15,000, of which 6,000 are in the postal service and 3,000 in the customs service. It will be seen by this that the civil service law does not cover one-seventh of the Government employes, and for this reason the friends of the law say they are unable to account for the great and evidently increasing clamor against it.

The Secretaryship of the Treasury.

WASHINGTON, April 15th.—Notwithstanding that Secretary Manning has expressed the intention of again entering upon his duties at an early day, the impression is gaining ground that he will soon resign. The Indiana people are pushing ex-Senator McDonald to the front. In fact, they have already presented his name to the President, and urged his appointment in case of vacancy. The President, it is understood, prefers a New Yorker, and his choice would undoubtedly be Assistant Secretary Fairchild, the latter having shown his efficiency during the time Secretary Manning was ill.

Blaine Still Interested in Politics.

WASHINGTON, April 15th.—Wm. Walter Phelps has left Washington to go to Augusta to consult with Blaine. Senator Hale happens by chance to be in Maine at this time, and it is understood that he will be in Augusta when Phelps arrives there. There is a good deal of curiosity about the object of this consultation. Some of Blaine's friends say that he is very much interested in the coming Congressional campaign, and that he is very anxious to have the Republicans carry the next House. The labor troubles, and the consequent depression in business, are all, he thinks, against the party now in power. The indifference of the Democrats, and the lack of sympathy between the President and his party, are also factors to be considered in the coming elections. If the Republicans can carry the next House, they feel confident that they can carry the next Presidential election.

Senate and House.

WASHINGTON, April 15th.—No business of special importance was transacted in either House of Congress to-day.

Capital Notes.

WASHINGTON, April 15th.—The nomination of R. E. Goodell to be Postmaster at Leadville, Colorado, was confirmed to-day.

In the Senate executive session to-day the Venezuelan treaty was taken up, read and ratified without debate.

The new Chinese Minister, upon his arrival here, will at once take up residence at the Chinese Legation, vacated by Cheng, who goes with his household to the Arlington, where his apartments are already engaged. He will probably remain there a fortnight, in order to instruct his successor and discuss his official duties.

Greathouse, who is here, is of the opinion that he will be appointed Postmaster at San Francisco when the commission of the present incumbent expires, on the 20th of May.

No action has been taken as yet upon the nominations of Collector Hager and Surveyor Tinnin. Senator Hearst will endeavor to secure the confirmation of both men as soon as possible. It looks now as if an attempt to defeat the confirmation of these officers will be futile.

PASSENGERS FROM THE EAST.

Labor for Orchards and Vineyards.

John S. Enos, Commissioner of the Bureau of Labor Statistics, San Francisco, has issued a circular to County Assessors, asking for information which is of importance to the Bureau. Following is a copy of the circular:

Dear Sir: The State Horticultural Society has addressed a communication to me, requesting that information be furnished at the next meeting of the Society, to be held on the 30th inst., in this city.

The information sought is whether the Chinese labor now and hereafter employed in the vineyards and orchards of the State can be supplanted by white labor during the fruit harvest in 1886.

Please to be kind enough to give me such information as you have, by answering the following, viz:

1. How many Chinese in your county?
2. How many are domestics and servants?
3. How many labor in vineyards, orchards and hop-yards?
4. How many labor in agricultural pursuits other than those mentioned in question 3?
5. Is there sufficient white labor in your county to replace the Chinese employed in the vineyards and orchards of your county?
6. If not, how many white laborers will be required to fill their places?
7. What time will be required to fill their places?
8. In your opinion, how many Chinese are engaged in the vineyards and orchards in this State?
9. How does the labor of white men and that of Chinese in vineyards and orchards compare as to quality and quantity?

An immediate answer is requested in order to furnish an early and complete statement to the Society, in the interest of two of the greatest industries of our State, as well as in the interest of white labor. Respectfully, JOHN S. ENOS.

Nearing the End.

NEW YORK, April 15th.—Dolly Adams, once the famous water queen, and who for some weeks has been lying at death's door, was removed to the New York Hospital yesterday. She is unable to use her limbs, and had to be carried down stairs to the carriage. "I am coming about all right," she said. "My mother and relatives have gone. They did me more harm than good, and were only waiting to get my jewelry and money. I hope to be able to leave the hospital by the middle of May." The physicians express no hopes for her recovery.

CONSUL BEE'S WAR DANCE.—The Woodland *Democrat*, speaking of the alleged indignity to the new Chinese Minister upon his arrival at San Francisco, says: "It is well known to the officers and to the public that all kinds of crooked expedients and sharp practices have been used by the Chinese and their abettors to evade the Restriction Act, and nothing more was done by Surveyor Tinnin on this occasion than was required in the conscientious discharge of official duty. The late William H. Seward, who was deeply stricken with Chinaphobia, in traveling as a high dignitary in China, in a sedan chair, was stoned by the Chinese, and had to hastily seek cover to avoid actual bodily hurt. This indignity was never atoned or apologized for, as far as we ever heard; and now, in our own country, when a Chinaman is detained fifteen minutes by the officers in the discharge of their duty, Mr. Consul Bee waxes wroth. He executes a fantastic dance before the Chinese Herod, and insolently demands, as the price of his agility, the official head of the Collector, and furthermore, that the United States Government shall get down on its knees to appease his offended dignity.

MERRY MERCHANTS.—The San Francisco *Post* of April 14th says: "The storm made business very dull yesterday, and several of our leading merchants relieved the tedium of the usual gathering on 'Change by playing boyish pranks upon their acquaintances. John Rosenfeld and John D. Spreckels put in an appearance with a supply of cigars conspicuously peeping from their breast pockets. These cigars had been carefully loaded with gunpowder. Their friends helped themselves right and left, and grinned while puffing out the smoke at the apparent recklessness of Messrs. Rosenfeld and Spreckels. Very soon there was a splutter, and sizzling, and such stampeding that one would have thought half a dozen dynamite bombs were being let off. Two of the victims—Freight Agent Rice and Sydney Smith—ran, one way and another. For a time it was pandemonium let loose. The victims think seriously of agitating the creation of the office of Sergeant-at-Arms, if such pranks are continued.

GENERAL BIDWELL RETALIATES.—On Saturday General Bidwell stopped the machinery of the Rancho Chico flouring mill and closed the establishment. This is done to avoid incurring an expense while the boycott is kept up, and it is believed that the General will continue to close down the various industries on his great ranch. That means a discharge of nearly 200 men, whose money is weekly expended in our city. This boycotting is proving to be a two-edged sword.—[Chico Chronicle.

A very skillful piece of engineering in a water tunnel at Riverside, San Bernardino county, came to a finish last week, when the two forces of hands working in from each end of the tunnel met. The tunnel is over 3,000 feet in length, and part of it is a curve, yet so true were the calculations made, that when they met in the center there was not one-fourth of an inch difference in the two divisions.

VAIN SUPERSTITIONS.

Rev. Dr. Munhall, the evangelist, is attracting very much attention in San Francisco. His latest utterance from the pulpit has brought the San Francisco doctors to the fore. The minister asserted in a recent sermon that man is built on the seven-day plan; that he is a seven days' work. In illustration, he declared: "A man ill of typhoid fever, if he survive till the seventh day of his sickness and tides over that day, there is no danger of his dying until the fourteenth day. If he lasts through the fourteenth day he is good till the twenty-first, and so on. But if he lasts till the forty-ninth day (the seven times seventh day) he will get well, for man is a seven days' work." Of course this was intended to fortify the doctrine of Sunday rest—six days for labor and one for God and rest. While the doctrine is an essential of Christian faith, there is physical reason sustaining its beneficial character; indeed, the necessity is for periodicity of rest and change from ordinary vocation. Sunday, aside from its Biblical fortification, is a wise physical economy. Every man who rests one day in seven is the better for it, and accomplishes more in the round of the year than he who labors without such cessation. But the idea of the mystical in the number seven as related to man's being, is a bit of superstition. Just as much evidence can be adduced in support of the mysticism of the number nine. The illustration cited, that of typhoid fever and the periodicity of its critical stages, was not a happy one. Ague of one kind has the periodicity of every other day in some cases, or every third day in other cases, as a distinguishing feature. The San Francisco doctors take issue with Dr. Munhall, and pooh-pooh his statement. It looks fine on paper, says Dr. Murphy, but is not borne out by experience. Dr. McNutt ridicules the idea of the seven day periods in typhoid fever. Drs. Dennis, Chaigneau, Stanton, McLean, Kirkpatrick, Fisk, Ollino, and other physicians, smiled broadly, or hotly denied the truth of Dr. Munhall's theory. It is to be said for it, however, that it is a popular delusion. The reverend speaker reflected a popular superstition, and to that extent his illustration was forcible, and had its due effect, but it ought not to be permitted to go abroad as a fact in medical science. A man may die of typhoid fever in any of its stages, and at any time after its commencement, and patients do succumb, and crises occur in the disease irrespective of any particular number of days of fever continuance. There are a great many of these superstitions afloat, and there is reliance placed upon them that leads to neglect culminating in loss of life. There is no illness in which it will do to calculate upon safety between supposed periodic crises. This is the testimony of medical men and nurses of experience, and we who are without the circle of technical medical knowledge, ought to accept it and not trust to old-womanish superstitions and charms. Certainly Dr. Munhall would not intentionally mislead, and now that it is called to his attention by skilled medical men, he will not continue in announcing belief in superstitions regarding disease, that, however harmlessly intended in citation to illustrate a point in doctrine, may lead the ignorant into fatal reliance upon broken reeds.

LOUISE MICHEL is coming to this country. We might stand that. But she is to take to the lecture platform, and that is bad. This woman is among the boldest advocates of the most vicious Socialistic doctrines. Her political view is thus expressed by herself: "Tear down the whole social edifice and begin over again." She holds that crime is the result of law; therefore, abolish law and crime ceases. For government she would substitute social groups, in which every member would contribute to the general good, the abler members without superior reward on account of superior services, but content with doing more for the association. Money would have no place in this arrangement, the wants of all being supplied from a public store, to which all would contribute according to the nature of their production and the extent of their capacity. Such teaching ought to defeat itself, but unfortunately it has hearers who become convinced by the platitudes of Michel and the sophistry of her school of thought. These are never very numerous, and in no place or in any experiment have they ever been successful in demonstrating the wisdom or beauty of this doctrine; but still they manage to inflame the vicious, alarm society, make capital timid, and deprive labor of opportunities for employment.

THE San Francisco *Call-Bulletin* Typographical Union difficulty has been adjusted. We congratulate all the parties. The settlement, we learn, is final, and to all concerned is entirely satisfactory. Let the *Bulletin* note, by the way—since it claims that there may be "enforced arbitration"—that it was accomplished by arbitration by consent, not enforced. How, now, would it have been, had the printers possessed lawful power to bring the *Bulletin* and *Call* into Court, and compel them to pay this, that, or the other wage? Or, how would it have been had the two papers possessed the power to bring the printers in Court, and compel them to labor at the cases at a rate distasteful to them? In either case, would the *Bulletin* be so bold as to declare the system one of arbitration? Would it not claim the right to refuse to issue under stress, and would not printers lay claim to the right to be idle rather than work at an enforced wage? And would not both claims be fortified by the human bill of rights, to say nothing of the charter of American liberty?

ON the 6th inst. Chicago held a city election, and for once all the journals of that place agree that it was perfectly fair and free from any suspicion of fraud. When an honest election is announced in a tone of surprise and congratulation, it testifies to the fact that such events are few and to a low state of political morals It may or may not be that the single instance of virtue is evidence of reform. We are inclined to think it spasmodic only. The conviction of two election manipulators of that city recently, and the fact that one of them, a noted political boss, is serving his time in State prison, may have frightened the vicious into temporary inactivity. But it will be only temporary. Chicago, politically, is the "wickedest city" on earth, Cincinnati alone excepted. No single case of purity of election can be accepted as a guarantee of reform from such a place.

THAT is a curious boycotting at Mittineague in Massachusetts. A Postmaster who is disliked by business men, and dependent upon sale of stamps from his office, is being boycotted by the business people, who buy their stamps elsewhere, and mail their letters on mail cars. The result is that the Postmaster's salary has fallen to a nominal figure. Of course, this is a protest against the political chicane by which a favorite official was displaced for a party servitor, and is not to be classed with the boycotts that interfere with the conduct of business for opinion's sake, or the exercise of a right. It is the first boycott on record in favor of civil service reform.

DEAR! dear! Here is another California defeat. A California barber has been beaten in a hair-cutting match on time, at New York, and loses $250. The trouble was that his New York opponent wore the prefix of Professor to his name. Of course a plain ordinary barber from California could not contend against such odds. We are all of us under lasting obligations to the Associated Press reporters for this stirring bit of telegraphic news, but our chagrin at the result of the match is deep, very deep. There is a grain of consolation, however—it is admitted that our man is the more graceful "artist."

THE dispatches say that the Democrats of Pennsylvania talk of taking up Mr. Powderly as a Presidential candidate. It is to be hoped they will. Mr. Powderly holds in his hands power for great good or great ill. Let him become the candidate of a political party, and that power will depart from him, and the party will be wrecked. Hence, we say, desiring to see the Democracy floored, that for the Republican party nothing better could happen than Powderly's entrance into the political arena, and the Democracy's subserviency, for the sake of a hollow promise of triumph.

LET us not hope too much even of the tribunals of justice. Eleven New York Aldermen are in "jug" for a varied course of crime relating to sale of their votes to purchasing street railway Directories. The proofs as disclosed thus far are strong. But of the conviction of these men few have any hope. Behind them are too many involved interests and men, to permit such a thing so long as money can buy false witnesses and bribe jurors.

THE transformed tariff bill will not pass either house. There will be no tariff legislation at this session. Tariff issues are not so easily trotted through a Congress. The country is divided on them; both parties are divided on them within party lines; the Administration is divided on them, and in such a state of affairs, with State elections coming on, Congressmen will decline to act.

SOME people insist upon dubbing this section of California as "Higher" California. Such a title is absurd. "Higher" has reference in the popular understanding to altitude, and in no sense conveys the idea of locality. "Central" California, however, has a clear and definite meaning, and expresses more nearly the character of the valley regions than any other term.

THIS morning's dispatches say that the relations between France and the Vatican are strained to the snapping point. It is to be hoped they will snap. Nothing better could happen for both parties involved. In the past ten years there has been maintained only the pretense of friendship between the two. Open enmity is better.

THE promptness with which the West has come to the aid of the St. Cloud sufferers with money, clothing and provisions in great plenty, testifies to the close bond of sympathy there is between Americans and to the warmth and generosity of the American heart.

THE San Francisco papers still continue to advertise lotteries, and to aid the lottery thieves in fleecing the people who are blind to the true character of these infamous schemes. And still the State and municipal authorities are silent and inactive.

MRS. GRAY continues to win, and her broom is still at the masthead. Yesterday eight of the boycotting bakers were arrested for disorderly conduct in front of Mrs. Gray's shop.

SICK HEADACHE.—Thousands who have suffered intensely with sick headache say that Hood's Sarsaparilla has completely cured them. One gentleman thus relieved, writes: "Hood's Sarsaparilla is worth its weight in gold." Sold by all druggists. 100 doses, $1.

GENERAL NEWS.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

DOMESTIC.

The Railroad Strike.

ST. LOUIS, April 15th.—One of the military sentinels in the Vandalia yards in East St. Louis was fired upon by an unknown man. The sentry fired and woke up another man in ambush. The miscreants both escaped. Two rails were removed from the Cairo Short Line road near Belleville by unknown parties last night.

RETURNING TO WORK.

ST. LOUIS, April 15th.—A special from Atchison, Kansas, states that the strike at that point is virtually over. Out of 112 men who stopped work there by order of the Knights of Labor, 78 have returned to work, as they say for good.

RELIEF OF SUFFERING KNIGHTS.

PHILADELPHIA, April 15th.—Secretary Turner to-day sent the following telegram to Mr. Powderly: "Brother Dunbar offers 10 per cent. of the gross receipts of each production of his play, "A Laboring Man," for the benefit of our suffering brothers in the Southwest. Shall I accept?" Mr. Powderly replied as follows: "Will accept brother Dunbar's proposition. Funds should be sent to you."

FINANCIAL ASSISTANCE POURING IN.

ST. LOUIS, April 15th.—A letter from Grand Master Workman Powderly to Secretary Turner is said by the Executive Committee to be the result of a unanimous request upon him by the Assemblies of the Order to place the strike upon a broad basis. The support of the entire organization will be secured by a formal circular. Since the arrival of the General Committee contributions, now running up to thousands of dollars, have been received every day by the members. For the last week the contributions have averaged over $2,000 a day. All this money has been sent out to be distributed among the strikers at every point on the system where it is needed, and it has been sufficient to meet all the demands so far without calling upon the reserve fund of the Order, or ordering an assessment. But Powderly's directions for the call for contributions met with the approval of the Board, because it will prove to the public that the strike has the indorsement of the Order in general.

GOULD'S REPLY TO POWDERLY.

NEW YORK, April 15th.—Powderly's letter was sent to Gould through W. O. McDowell, with instructions that if Gould, to whom these written instructions were also submitted, did not consent to an honorable settlement of the difficulty before 5 o'clock of the day on which the letters were delivered, or at that hour still preserved silence, to allow the letters to be published. At the opening of his reply to Powderly, Gould quotes his letter of instructions to McDowell, and acknowledges the receipt of Powderly's letter, the substance of which is given above. Gould then proceeds to construe Powderly's letter as an official declaration that the Knights of Labor had determined to pursue him personally, unless the Missouri Pacific Company should yield to their demands in what they called a strike on that roads. In answer to these personal threat he would say that he was still a free American citizen. Gould then refers to his lowly beginning in life and to his success through habits of temperance and industry, and says that if, as Powderly says, he is to be destroyed by the Knights of Labor, it is fortunate he has retained his early habits of industry. Gould then says he is quite content to leave his personal record in the hands of his neighbors and business associates. If they have aught to complain of he will be glad to submit to any arbitration. Gould then recounts the fact that when the strike commenced he was far away from the scene of trouble, and quotes telegrams from his subordinates describing the difficulty and other messages heretofore published during the early part of the troubles. The last dispatch quoted is one from A. L. Hopkins to Powderly, earnestly urging that the strike is unjust to both sides, as the road is in the hands of receivers. "This dispatch," says Gould, "you never answered. This correspondence places the continuance of this strike on your shoulders. You sat still and were silent after Mr. Hopkins' urgent appeal, and allowed the strike to go on; allowed the company's property to be forcibly seized and the citizens of four States and Territories to be deprived of their rightful railway facilities. Thus forced, the Board of Directors, till my return, placed the matter in Mr. Hoxie's hands, by formal order, and that position of it has never been changed." Gould then entered into a long review of the features of the difficulty already published and republished, maintaining that the company's offer to take back the strikers who had not destroyed property, had been strictly lived up to, and that the company will stand ready to live up to its agreement in that regard. In conclusion Gould says:

> In the face of all this you notify me that unless by 5 o'clock I personally consent to do something—precisely what I do not see—then personal consequences, of a sort vaguely expressed, but not hard to understand, will, at the hands of your Order, be visited upon me. Let me again remind you that it is an American citizen that you and your Order propose to destroy. The contest is not between your Order and me, but between your Order and the laws of the land. Your Order has already defied those laws by preventing, by violence, this company from operating its roads. You hold, then, that this company should not operate its roads under the conditions prescribed by law, but only under the conditions prescribed by you. You declare in effect that I hold my individual property and rights, not as other men hold theirs, but only at the peril of your letting loose irrevocably after 5 o'clock your Order upon me. If this is true of this company and me, it is true of other men and companies. If so you and your Order are the law, and are American citizens only in name. Already, for weeks, your Order has, in your attack upon this company, not hesitated to disable it by violence from rendering its duty to the public and from doing work and paying wages to men of, at least, three times your own number, who, working as they were by your side, were at least deserving of your sympathy. Having thus pushed this violence beyond the great forbearance of the public, and found in this direction cause to hesitate, you turn upon me and propose that the wrongs you have hitherto inflicted on the public shall now culminate in an attack upon an individual. In this, I have said, the real issue is between you and the laws of the land. It may be that before you are through those laws will effectually advise you that even I, as an individual citizen, am not beyond their care. Very respectfully,
>
> JAY GOULD.

PROCLAMATION BY POWDERLY.

PHILADELPHIA, April 15th.—Grand Master Workman Powderly, of the Knights of Labor, to-day addressed the following circular to members of the Order:

THE NOBLE ORDER OF KNIGHTS OF LABOR OF AMERICA.

> *To the Order wherever found*—Greeting: You have all read of the great strike on the Gould lines of railway in the Southwest; its history is being written day by day. It makes but little difference now whether the men of the Southwest acted wisely or not. Let us pass that affair over, for it has passed into history. The General Executive Board of the Order attempted to settle the trouble and restore harmony. Agreements were made with them by Jay Gould, Esq., but when the Board reached St. Louis, Mr. Hoxie would not treat with them. Not that alone, but he positively refused to employ Knights of Labor, whether they had been active in the strike or not. It now becomes the part of every man and woman in the Order to take up the fight of the men of the Southwest, and assist them to the full extent of their means. They have been idle for nearly two months. They have had a most trying ordeal to go through, and are in need of funds. It requires no eloquence or rhetoric to plead the cause of these suffering people. They require aid, and it becomes our duty to extend that aid as quickly as it is possible for us to do so. Send every dollar you can spare to the General Secretary and Treasurer, who will at once forward it to the men at St. Louis for distribution. Remember that the men out there do not ask for charity. They do not ask at all. It is your Executive Board that makes the appeal in their behalf. He who gives quickly gives doubly. Act at once. Another appeal may be sent to you, and we ask of you to prepare for it now. We must be judged by our action in this matter. Do not pass resolutions condemning capital, for we are not fighting capital. Do not antagonize the contest we have before us. Let us make friends of every man who has suffered through monopoly. This battle against the man who represents monopoly must be fought out manfully. Watch his actions everywhere. Keep an eye on the doings of Congress. Urge the committee that has been appointed to its duty fearlessly. Strengthen their hands, give them every aid. In conclusion, let us again ask that you send at once every dollar you can at present raise to uphold the men who are now out along the lines of the southwest system of Gould's railways. Do not delay, and at the same time make ready to bring the whole power of the Order to bear upon the man who wrecks railroads, homes, fortunes and lives in his greed for gold. Let us determine to have it go into history that the men of 1886 struck as grandly for liberty as the men of 1776. The men of 1776 broke the power of monarchy and dethroned a king. The power which they wrested from the hands of the king was not so great as that which is now held by one man, who, through the corrupt use of money, has brought the manufacturer and workman to ruin. The power of the king has passed away. The power of wealth is now passing away, and it must now be determined whether man shall rule, or whether illegitimate wealth shall rule.

> Grand Master Workman.

CALLED TO CHICAGO.

SCRANTON (Pa.), April 15th.—Mr. Powderly was called to Chicago late to-night, on important business connected with the Knights of Labor.

AN INDICATION OF COMING TROUBLE.

NEW YORK, April 16th—A. M.—The Spread the Light Club, of the Brooklyn Knights of Labor, have issued an incendiary address to the public, asking for aid for the St. Louis strikers. After denouncing Jay Gould as guilty of every crime, they ask workingmen if they intend to let such a man trample on their rights. The most significant sentence is the advice to the St. Louis strikers not to allow crime to remain unpunished an hour. This and the tie-up on the Third-avenue surface road, and possible strikes on other lines, indicate that there may be trouble in this city in the near future.

MORE STREET CAR LINES "TIED UP."

NEW YORK, April 15th.—Eleven hundred employes of the Third avenue, Livingston avenue, One Hundred and Twenty-fifth street and the Cable lines met to-night, to decide the question of the contemplated strike on account of the refusal of the company to discharge non-Union employes. At midnight it was decided to tie up those lines at 4 o'clock, and, it the demand is not acceded to, it is threatened to tie up all the roads in the city.

The Ohio Bribery Case.

COLUMBUS, April 15th.—The legislative committee appointed to investigate the charges of bribery in electing H. B. Payne Senator in January, 1884, reported this evening.

The majority report, signed by three Republicans, is lengthy, and is accompanied by eighty pages of evidence, the important points of which are cited, to show that while some of the members of the present General Assembly have been conclusively impeached, a case has been made as to corrupt methods, and the testimony fully justifies that it be certified at once to the United States Senate, for action by that body in considering Payne's right to his seat. Most of the witnesses testifying as to the use of money were Democrats, some being ex-members of the Legislature, who were at the time offered various sums, notably Representative Kahoe, who testified that Senator Ramey offered him $5,000 to vote for Payne, saying that was what he (Ramey) got. Evidence is cited to show two banks wherein Ramey deposited $2,500 each, and also to show large investments at the time by State Senator Elmer White, Representatives Mooney, Roche and others. The majority report is somewhat sensational, and has caused a great stir, especially the evidence of L. A. Russell, who tells of picking up a $20 bill on the floor of D. R. Page's room, Page being Payne's manager, and J. J. Hale, who told of entering J. Huntington's room unceremoniously and finding stacks of bills—more money piled up than he ever saw in the bank of which he is a Director. The committee sets forth that Huntington, who is one of the Directors of the Standard Oil Company, was regarded as the purser of the alleged Payne fund, and as soon as this committee was appointed he fled to Cuba, and has not been available.

The minority report, signed by the two Democratic members, is devoted to arguments to impeach the most damaging witnesses, and while admitting that there have been many newspaper rumors and much testimony of a general nature as to corrup on and bribery, that there is no direct evidence, and that the connecting link is out in every case, so that they hold such evidence should not be certified to the United States Senate to blacken the character of any man.

Pending a discussion to print the reports and substitute the minority for the majority report, a recess was taken until to-morrow morning, and the matter will probably be before the House all the week.

Boycotting a Postmaster.

NEW YORK, April 15th.—A Springfield, Mass., special says: There is a curious boycott in Mittaneigue, a small village three miles from here. Michael Burke, a young Democrat, was recently appointed Postmaster, displacing Luke Bliss, a stanch Democrat, appointed thirty years ago. The office is one of the fourth class, paid by the percentage on stamps sold. The business men and mill-owners were not consulted, and they kicked. Burke had hard luck in getting a location for the office, but finally succeeded. Now the mill people and many others get their stamps elsewhere and place their mail direct on the trains. They get their mail at the Postoffice, but have nothing else to do with it. Burke's pay has fallen to $300 a year. He says politics don't pay.

The Boycotted Bakery.

NEW YORK, April 15th.—The police arrested the placard-bearers and hand-bill distributors in front of Mrs. Gray's bakery yesterday, and the Police Justice fined them $1 and costs each, and told them he would send them to Blackwell's Island the next time. Mrs. Gray has been summoned before the Grand Jury to-day, and that body will look into the question of conspiracy on the part of the boycotters.

The Oneida Community and Its Founder

NEW YORK, April 15th.—John Humphrey Noyes, who died at his home at Niagara Falls, Ontario, on Tuesday, achieved distinction by founding a religion, based upon the utter destruction of selfishness and the most genial system of communism. He was the father of the Perfectionists who peopled the Oneida Community. Noyes studied theology at Andover and New Haven, and was licensed to preach in 1833, but he was hurried away by the fanatical study of the Bible and the frenzied preaching of revivalists, under whose ministrations he chanced to sit. He conceived altogether new ideas of the scheme of salvation, and his license as an orthodox preacher was annulled. In the course of time he drew about himself a band of some forty faithful followers at Putney. It was in 1845 that he first declared his peculiar view of the relations of the sexes, and a year later the Putney Community adopted them in practice. They professed to repudiate the doctrine of free love, but women, as well as goods, were enjoyed in common lot by the Perfectionists, and the equality of women with men in social and commercial affairs was maintained. Finally the little band of fanatics was driven by force and threats from the community. This led to a pilgrimage to Oneida, Madison county, New York, where, in 1848, the now famous community was established, with a membership which presently grew to over two hundred. They started in with forty acres of untilled land, but in a little over twenty years the community had acquired 664 acres of land, abundant water-power and manufacturing interests representing some $200,000. The system of complex marriage and unitary home worked its natural and most melancholy results, which were seen in the younger generation, which came up under Mr. Noyes' control of the community. In 1877 it was found necessary to abandon the institution of complex marriages, and the other practices of the communistic settlement fell into disuse.

The President to be Married in June.

NEW YORK, April 15th.—The *Tribune's* Buffalo special of April 14th says: The report of President Cleveland's engagement to Miss Frances Folsom, of Buffalo, seems to be well founded. An Albany dispatch says: The Troy lady mentioned as receiving a letter from Miss Folsom is Mrs. Wellington, wife of Assistant United States District Attorney Wellington. She is a cousin of General G. Barrett Rich, of Buffalo, and was formerly Miss Townsend. General Rich, to whom this dispatch was shown this afternoon, said: "Whether Mrs. Wellington has received any letter I cannot say, but I will say to you the report of Cleveland's impending marriage is true. A lady friend of my wife—I prefer not to mention her name, but she is a close friend of Miss Folsom and is in constant correspondence with her—has received a letter from Miss Folsom, in which she says she is to be married to Cleveland quietly at the White House in June."

General Grant's Dispatches.

NEW YORK, April 15th.—It is said that General Grant's family have material for another book, consisting of the General's dispatches, army orders and letters. They will probably be arranged by Colonel Fred Grant, who is reported as saying that they will make agreeable matter for those interested in army affairs.

A Hair-Cutting Match.

NEW YORK, April 15th.—A novel match for $250 a side took place here last night, between a barber from California and Professor Harrod, of this city. Each undertook to cut a man's hair within fifteen minutes, the man cutting the quickest to receive the stakes. A number of prominent brokers and politicians attended the match, which was the first of the kind in this city. The Californian was defeated, though the referee admitted that he was the most graceful hair-cutter of the two.

Annual Report of the Atchison Road.

BOSTON, April 15th.—The annual report of the Atchison, Topeka and Santa Fe Railroad for 1885, gives the following information: Gross earnings, $7,363,000; total interest, dividends and other fixed charges, including $291,000 for sinking fund, $6,859,000; net surplus, which has been added to the income account, $504,000. This surplus does not include the profits of the Atchison Land Grant Department, which last year amounted to $1,304,000.

Effort to Close Places of Amusement on Good Friday.

NEW YORK, April 15th.—Movements are on foot among the Roman Catholic clergymen here to induce the managers to close their theaters on Good Friday. Wallack's, Daly's, the Standard, Bijou, Grand Opera House, Union Square, Niblo's and the Windsor will all be closed if the consent of the contracting parties can be obtained.

FOREIGN.

France and the Vatican.

NEW YORK, April 15th.—A Rome special says: Relations between France and the Vatican are again strained almost to the snapping point, and at any moment one or the other may take a position which will at least temporarily put a stop to diplomatic intercourse. Since he assumed office M. De Freycinet has been yielding to the pressure put upon him by the Radical advocates of the separation of Church and State in France. The vexations to which the Catholic Church is exposed in France have embittered the smoldering resentment of the Vatican, and the ill feeling has been fanned by the Pope's pro-German and Italian counselors. On the other hand, the French Government has taken offense at the projected change of relations between Rome and China. Pope Leo has just resolved to treat directly with the Celestial Empire in future with regard to all questions affecting Catholics in China, and to withdraw the privilege of protecting Chinese missions from France. The Papal decision is not yet officially notified to France, but in anticipation of the rupture it is reported that M. De Freycinet has sent Lefebvre Debehaine, French Embassador at the Vatican, letters of recall for production at the fitting moment.

A Cheerful Paragraph.

NEW YORK, April 15th.—A London special says: The London *Telegraph*, commenting on last night's anti-home rule meeting, has this cheerful paragraph: If we are ready to consent, at the mere menace of a gang of American desperadoes, to dismemberment, to which Turkey only submitted after her defeat in a great war, our pusillanimity will assuredly point to a decline more profound than her own.

Germanizing Poland.

BERLIN, April 15th.—The upper house of the Diet has adopted the bills for Germanizing Poland.

Fatal Collapse of a Mansion.

PARIS, April 15th.—Nine persons were killed and a number were injured to-day at Abaccio, the capital of Corsica, by the collapse of a mansion.

The reason why men succeed who mind their own business is that there is so little competition.

GENERAL NOTICES.

"A God-send is Ely's Cream Balm," writes Mrs. M. Y. Jackson, of Portsmouth, N. H., on May 22, 1882. I had Catarrh for three years; had tried nearly all remedies, but to no purpose. Two or three times a week my nose would bleed quite freely, and I thought the sores in it would never heal. Your Balm has cured me. This preparation is not a liquid or a snuff, and is easily applied. Price, 50 cents. See advertisement. d7-1yMWF

The "JEWEL" VAPOR STOVE we guarantee to burn 25 per cent. less gasoline than any other sold in Sacramento. They are the only VAPOR STOVES with the oven permanently attached, leaving the top burner free at all times for cooking. They exclusively have the patent shut off guard, whereby one can regulate them at will, making them absolutely safe for even a child to use. To show the immense popularity of the "JEWEL" VAPOR STOVES we have only to say that we have sold a full car-load of them the past two weeks, and have received another car-load on Monday last, and this day telegraphed the manufacturers to ship us three car-loads as soon as possible. Buy none but the "JEWEL" VAPOR STOVE. Other dealers may say their stoves are just as good, but don't be deceived. See the "JEWEL" NON-EXPLOSIVE VAPOR STOVE at our store before you buy, as we are the General Agents for California.

Who Wants a Copy?

Some talented artist has presented the police department with a picture of "Our Noble Force," which has aroused an intense desire in the breasts of the members represented to learn who the aforesaid artist is. Chief Dillman is put in the foreground, inspecting his men in position a la Falstaff. On the left of the line is officer McCormack, with a "just take it if you think you can get away with it" expression. Officer Yager backs McCormack, smiling to think what fun there'll be soon. Kent, with head erect and toes turned out, like an "old vet," might be thought to be wondering why Pygmalion didn't sculp him, the finest of the "finest force in the world," instead of Galatea. Officer Leavy has a humorous cast of countenance, and appears to be remarking, "Wait till I tell ye how them cops do it on the ould sod." Coffey is sadly meditative—"Who do you suppose stole my game rooster?" Sullivan has a sort of right-side-up look, and the diamond in his necktie gleams "like a good deed in a naughty world." Officer Wendt had to hurry to get into the picture, and only succeeded by a head. Officer Farrell's portrait was not taken happily. It looks more like a picture of misery than of the jolly Larry. By the manner in which he caresses his stomach one would imagine that he had been making a raid upon a cucumber plantation, and "run in" too many of them. The picture will be photographed and copies disposed of at a reasonable price before the illustrated papers spoil the demand.

Sam Brannan.

Henry M. Sontag, who recently returned from a business trip to Mexico, met, while at Nogales, a small town on the Guaymas Railroad, Sam Brannan, the California pioneer, well known in Sacramento and throughout the State. Nogales is on the line between the United States and Mexico, the boundary running through the center of one of its main streets. Mr. Brannan lives at Nogales, where he is engaged in the real estate and mining business. He told Mr. Sontag that his partner and himself, a man named Dunphy, were engaged in surveying the State of Sonora, for which they are to receive from the Mexican Government an immense grant of land. The old gentleman said his health was good, and that he would soon return for a short visit. He said, sadly, that if he possessed now the land he once owned in California he would be worth $150,000,000.

WALTER M. LEMAN'S "SECOND PROGRESS."—The second and last of Walter M. Leman's lectures in this city, giving reminiscences of objects of interest that attracted his attention during his trip to Europe, a short time since, will be delivered at Pioneer Hall this evening. It promises to be fully as interesting as the first, which delighted a large audience, and will refer to his progress from Paris to Venice, thence to Stratford-on-Avon, and hence "over the deep." The veteran actor's account of his visit to the birthplace of the "Bard of Avon," will be especially worth hearing. So many by reason of the inclement weather having have been prevented from attending the first lecture, Mr. Leman has reduced the price of admission to to-night's lecture to 25 cents. Those holding season, or 75 cent tickets, will be permitted to pass another person on each of such tickets besides the holder of it.

A YOUNG TRAVELER.—A. M. Wright, a watchman for the San Joaquin Company, took to the station-house yesterday a bright little boy named James Murphy, 7 years of age, who got on board a Sacramento-bound steamer a few days ago at San Francisco, and came to this city, since which time he had been taking care of himself as best he could. Chief Dillman sent a dispatch to the boy's father, who is a member of the San Francisco Fire Department, and received answer requesting that the youth be placed upon the San Francisco train, in charge of the conductor, and sent home, which was done. The youngster gave as his reason for his excursion that he "wanted to take a boat ride."

CONCERT THIS EVENING.—A concert under the auspices of the Young Men's Christian Association will be given this evening, at 8 o'clock, in the Sixth-street M. E. Church. The following ladies and gentlemen have numbers on the programme: Mrs. Addie Carter, Mrs. W. C. Lewis, Mr. and Mrs. H. Auerbach, Messrs. Harry Carroll and Richard Cohn. Instrumentalists: Piano—Miss Gertie Gerrish, Miss A. Kaibel and Mrs. C. A. Neale. Flute—C. A. Neale. Violin—Miss L. Kaibel. Elocutionists—Miss Helen Carleton, Miss Mamie Waterhouse, Mrs. James Seadler. Admission, 50 cents. It will be observed that the programme includes the leading local artists.

THE TURNER RIFLES.—The Sacramento Turn-Verein has added to its different sections one that will practice the use of the rifles, and is called the "Turner Rifles." The club will use the United States military rifles, 6-pound pull, and shoot at Creedmore targets. The following officers have been elected: F. Ruhstaller, Captain; F. Y. Williams, Orderly Sergeant; W. Eckhardt, Treasurer; G. Hagelstein, Shooting-master. They are having a range prepared near the American river bridge, and will soon commence practice. In time matches with some of the military organizations may be expected.

METROPOLITAN THEATER.—Charles Reed's Minstrels will appear again this evening, with a new and varied programme, for the benefit of manager Simmons. The lease of the theater under the manager expires in a few days, and the building is to undergo great change in its interior. Mr. Simmons will thus take what may be his farewell benefit. He has not often appealed to the public in this way, and presents on this occasion a first-class troupe of music, minstrelsy and comedy. The advertisement discloses the change in prices, which are 50 and 25 cents, and reserved seats 75 cents.

POLICE COURT.—In the Police Court yesterday Mrs. Lower, previously convicted of disturbing the peace, was fined $20, or twenty days.....Joe Lynn, the Chinaman who created a disturbance on Third street, near I, was fined $20, or twenty days, for carrying concealed weapons, and $100, or 100 days, for drawing and exhibiting a deadly weapon.....Madame Dubois, Angela Basloe and Sarah J. Folsom, arrested for exhibiting, forfeited their deposits..... The case of J. J. O'Hare, for malicious mischief, was tried, and

Sergeant Barwick's Report.

The rainfall at Sacramento during the twenty-four hours ending at 7 o'clock last night was .53 of an inch, making 31.84 inches for this season, as against 32.79 for the entire season of 1867-68. This season is but .95 of an inch behind the wet season named above. The rainfall for the whole of last season was but 16.58 inches; this season having 15.26 inches more rain to date than dia the whole of last season. The rainfall at each California Signal Service station during the twenty-four hours ending 7 o'clock last night was: For Red Bluff, .32 of an inch; Sacramento, .53 of an inch; San Francisco, .21 of an inch; none at Keeler, San Luis Obispo or Los Angeles; no report from San Diego. The barometer was falling in California, accompanied by a rising temperature and southerly winds, with light rain in northern and central California; northerly and westerly winds, and clear to fair weather in the southern portion of the State. The barometer in Washington Territory and Oregon, at 7 o'clock last night, was low but rising, with southeasterly winds and weather ranging from clear to fair, cloudy, threatening and light rain. The rainfall during the last few days does not, as a general thing, appear to have been of very large amounts, simply cloudy weather, and at times drizzling rain, resembling much the storms along the Atlantic coast of the Eastern States, where a northeast storm will last two weeks, and sometimes not deposit more than one inch of rain; but the weather will be cloudy, damp and drizzling, giving one the blues or making him low-spirited and gloomy. This resembles the Eastern stuff as near as can be, which no doubt will make some of our Eastern visitors feel more at home than they otherwise would.

The weather in Scott valley, near Fort Jones, Siskiyou county, during the month, as observed by Isaac Titcomb, was as follows: Highest temperature at 7 A. M., 43°; lowest temperature at 7 A. M., 21°; highest temperature at 2 P. M., 67°; lowest temperature at 2 P. M., 36°; highest temperature at sunset, 55°; lowest temperature at sunset, 29°; mean average temperature for the month at 7 A. M., 30.5°; average temperature for the month at 2 P. M., 50.5°; average temperature for the month at sunset, 39.8°; average monthly temperature of all the observations, 40.3°; highest temperature during March, 67°; lowest temperature during March, 21°; average maximum temperature, 50.5° average minimum temperature, 30.3°. Total rainfall and melted snow, 1.33 inches; total for season to April 1st, 25.90 inches. There was twelve inches of snow fell during the month; prevailing wind was from the north.

The observer, Mr. Titcomb, says: Nothing specially noteworthy has been observed during March. The heavier rains of the season seemed to be superseded in the latter part of February by the cold and dry northerly winds and variable weather usually prevalent here in the spring after the rains have mostly ceased. Similar weather has prevailed during the past month. The air has been sensibly drier; the falls of rain or snow were quite inconsiderable, while the prevailing winds were from the north.

His Mustache Saved Him.

Most men consider a mustache a desirable belonging by way of ornament, and young ladies "just dote" upon the young fellow sporting a handsome one. Medical men are said to indorse the mustache as a health-improver, claiming that it serves as a sort of filter, preventing heavy dust from entering the nostrils, and finding its way into the bronchial passages and lungs. A Sacramento man is the first, however, to owe his life directly to the hirsute appendage and ornament. Those who have had occasion to pass that way will remember that near the winery, on the front levee, below R street, there is about a block from which so much soil was excavated years ago for levee building purposes, that a big hole was left, which at this season of the year is full of water. There is a narrow roadway crossing this section, leading from the street to the winery. A day or two ago a man employed at one of the breweries had occasion to cross this road on his way to the winery, but, as he did not pay close attention to his driving, his horse, when about half-way over, slipped from the side of the embankment and rolled into the water, which is quite deep. The driver, who had saved himself by jumping, went to the rescue of the animal, and was about to cut the harness, when the horse in his struggles threw him into the pond. A man named Brophy, employed at the gas works, had meanwhile observed the trouble, and hastened to the spot to help save the horse. He caught the animal by the bridle and managed to keep his head above water, supposing the driver would have no difficulty in getting out; but when he looked around for him he had disappeared beneath the surface, being unable to swim. Brophy watched, and when he reappeared made a grab at him, caught him by his long mustache, and towed him ashore! Other men who had arrived lent their assistance, and the horse was also rescued.

Agitation Over a Name.

EDS. RECORD-UNION: One of your correspondents facetiously crowds on all the amendments that have been offered as a designation for the Sacramento division of California. The traditionary meaning attached to northern California misrepresents, and, in fact, libels that part of her semi-tropical climate; but your facetious correspondent, in piling on all the uppers and lowers and highers and nethermosts and citrus Californias that have been suggested, still does not meet our requirements, and fails to offer a concise appellation that would have any grammatical title to stick. The question merits our best consideration. If, as long as we retain northern California for the Sacramento division, extending from Siskiyou to the Golden Gate, we cannot dispel the false illusion it creates regarding our climate—although even Redding is on the same latitude as Naples and Madrid—then a new correct designation is absolutely required, and it is laid down for us by nature. The Sacramento division and the San Joaquin division both converging to the Golden Gate, our great river divisions at once afford perhaps the only two designations that can be correctly applied. Who seconds the motion? A. F. GODDARD.

The City Sunday Schools.

At the Sunday-school Convention held in this city Wednesday evening, of the churches in this city, quarterly reports of schools for the quarter ending March, 31, 1886, were made as follows:

FATALLY HURT.—James Grogan, a brakeman on freight train No. 8, fell from a car near Cascade Wednesday night and was run over, his legs being crushed and other injuries sustained. He was brought to the Railroad Hospital, in this city, yesterday morning, and died early last evening. He was a native of California, aged 19 years and 19 days. His parents and a brother and sister, who reside at Vallejo, having been notified by telegraph of the severity of the accident, came to the city last evening.

SUICIDE BY DROWNING.—Yesterday morning a drowned man was discovered in the canal at Sixth and Y streets. The Coroner was notified, and the body taken from the canal to the Morgue, where an inquest was held last evening. The jury found his name to be Christian Holder, nativity unknown, aged about 56 years, and that he came to his death by suicide. Deceased for a time kept a bootblack stand at Fifth and K streets, and lately started a laundry in the rear of the Pacific Hotel.

OLD FOLKS' CONCERT.—The ladies of the Mutual Benevolent Society will give an old folks' concert at Smith's Hall, Seventh street, between K and L, this evening, and the rehearsals show that it will be a very pleasing entertainment. Admission, 50 cents.

BARBER & PEALER'S opening will continue yet this week. No. 621 J street. *

BRIEF NOTES.

The Sacramento river fell to 20 feet 10 inches yesterday.

Yesterday's rain was general throughout the Sacramento valley, and snow fell on the hill.

Charles B. Strong was elected as one of the Lieutenants of Company B, First Artillery Regiment, Wednesday evening.

Governor Stoneman has appointed Thos. P. Hendricks a Director for Agricultural District No. 3, vice Chas. Faulkner, resigned.

The Turner Rifles, the new section of the Sacramento Turn Verein, will give a social dance at Turner Hall Sunday evening. Admission 25 cents.

On account of some disagreement with the management, Mr. Claypool, trainer of one division of the running horses on the Rancho del Paso, has resigned his position.

John A. Bauer, Treasurer of the county of San Francisco, paid into the State Treasury yesterday $20,712 77. R. B. Hathaway, Treasurer of Contra Costa county, paid in $5,573 18.

Chang Yen Hoon, the new Chinese Embassador to the United States, accompanied by a retinue of nearly a score, came up from the Bay last evening, on his way to Washington, D. C.

Deputy Sheriff Wilson came up from San Francisco last evening with Henry Johnson, en route to the State Prison at Folsom to serve three years for an attempt to commit burglary.

J. A. Evans, of Routier's, an old and much-respected resident of Sacramento county, died yesterday morning after a short illness. He was about 50 years of age. The funeral will take place next Sunday.

The only case before the Superior Court yesterday was that of Michael Oschner vs. Joseph Oschner, in Department Two, and it was dismissed in consequence of the failure of the plaintiff or his attorney to appear.

The steamer Neponset arrived from the upper Sacramento yesterday with produce. The San Joaquin, No. 4, cleared for San Francisco with a barge-load of grain, and the Dover for the upper Sacramento, with merchandise and lumber.

Charitable ladies are requested to send some infants' clothing and other things to Mrs. Steinauer, a lady who needs them very much, or to the Howard depot. The woman's residence is in the alley between O and P, Fifth and Sixth.

State Controller Dunn signed a large number of warrants yesterday. Among them was noted $11,194 08, for the support of the Folsom Prison, $721 87 expenses of the Yosemite Commission, $3,039 25 two weeks day-roll of the State Printing Office.

A. Pendleton writes from Nicolaus, under date of the 15th, 7 A. M.: "Rain for past eight hours, .39 of an inch. Strong south southeast wind and light rain. The heavy storm of last night was accompanied by hail four miles below here, which killed many wild geese in their flight."

James McCleery has sold to Bishop Monogue the west three-quarters of the south half of lot 8 in the block bounded by J and K, Eleventh and Twelfth streets. McCleery reserves the buildings, and will remove them. This gives the church people the entire frontage of that block upon K street.

Young Men's Institute, No. 11, of this city, has elected Hon. F. D. Ryan, D. J. Long, Fred Neary, James B. Devine and Joseph Genshlea as delegates to the Grand Council, which meets in San Jose on June 14th. Captain Thomas Dwyer and R. M. Clarken were elected honorary members of the Institute.

Carle, Croly & Abernethy, contractors for the construction of the new State hotel at Yosemite, have all their arrangements completed for moving machinery and a force of men into the valley to commence operations, but during the recent stormy weather so much snow fell that it is impossible for heavily loaded vehicles to go in, though the stages have been making trips for some time.

Judge Lawler, in the San Francisco Police Court, yesterday, dismissed the charge of assault to murder pending against Mrs. Hattie Levinson, charged with shooting her husband, Wm. U. S. G. Levison. The San Francisco officers were unable to find Levison, to compel his appearance as a witness, but they would not have had much difficulty in getting him if one of them had come to Sacramento, as he has spent considerable of his time here lately.

The continued rain is worrying the farmers of Sacramento county, and doubtless of many other counties, mainly on account of the damage it threatens to do to fruit trees. The season is so far advanced that warm weather may be expected as soon as the storm ceases, and the unusual amount of water in the ground will, it is feared, do much injury when acted upon by the sun's rays. This is especially the case where there is no great depth of soil upon the bedrock. Many apricot, peach and cherry trees are already reported to have been affected. Grain-growers fear that the rain will cause the grain to grow too rank. Stock-raisers are well pleased, however, as the grazing will be much improved.

The El Dorado Reunion.

The society of El Dorado County Pioneers, one of the largest social organizations in the State, will hold its annual reunion and picnic at Shell Mound Park, near Berkeley, on Saturday, the 8th of May. This organization was formed many years ago, and includes among its membership the names of a majority of the leading statesmen of the historic days of California, when the one pursuit was the chase of the fickle goddess, El Dorado the banner county of the State, and Hangtown and Coloma, the two most important towns on the Pacific coast, not excepting San Francisco and Sacramento. These annual reunions are largely attended, old El Dorados flock to them from all over the coast, and the pioneers, their children and grandchildren meet upon a plane of cordiality and sociability that is not observable at any other picnic. F. A. Hornblower, at one time proprietor of the Golden Eagle Hotel in this city, is President of the society. Dwight W. Fox, a talented young attorney of this city, and who first saw the light of day at Garden valley, in El Dorado county, has been selected and consented to deliver the oration. A large number of El Doradoans residing in this city will attend.

Blue and Gold Party.

The ladies of Sumner Corps, No. 11, gave a blue and gold party at Grangers' Hall last evening, which was largely attended. On entering the hall the ladies were given yellow Maltese cross shaped badges, and the gentlemen similar ones of blue. Each were numbered, and the lady and gentleman having the same number were partners for the first dance, an old-fashioned quadrille. Before the dance the following literary and musical programme was rendered: Opening address, Mrs. Kellogg; instrumental solo, Miss Maud Nixon; recitation, "Prayer and Potatoes," Mrs. M. Keller; instrumental solo, Miss Borchers; vocal solo, Miss Cassie Galligan; instrumental solo, Miss Minnie Shore; vocal solo, Mr. Desmond; recitation, "Charge of the Light Brigade," Miss Nellie Gent; vocal duet, Mr. Wallace and Miss Sullivan. The floor committee consisted of Jennie A. Bell, directress, assisted by M. Maud Berry, Louise Fritze, May Flemming and Mattie Shirland. Refreshments were served in the banquet hall.

ARRESTS.—The following arrests were made yesterday: Frank Rogers and Miller Walter, by officer Rider, for being drunk; Ah Gem, by officers Kent and Wendt, for petit larceny; George Thorp, by officer Yager, for vagrancy; Mrs. Walker, by Deputy Sheriff Karcher, for misdemeanor.

Local Grand Army Excursion Rates.

T. H. Goodman, General Passenger and Ticket Agent of the Southern Pacific Company, states, in answer to many inquiries relative to special rates incident to the National encampment of the Grand Army of the Republic to be held in San Francisco commencing Tuesday, August 3d, that excursion tickets will be sold from local points west of Ogden (included), and west of El Paso (included) to San Francisco and return at one-half full local ticket rates, or at one tariff fare for the round trip. Such tickets will only be sold for the use of members of the Grand Army and Woman's Relief Corps, including families and female relatives. Persons belonging to families and female relatives must be accompanied and identified by members of one of the organizations named. Members must present certificates of membership signed by the Adjutant or commander of the Post to which they belong. Tickets will be placed on sale fifteen days prior to the date of the opening of the Encampment, and must be used through to San Francisco before the date of such opening. Tickets must be used for return passage within thirty days from the date of the opening, and will not be good for return passage previous to that date. Return tickets will be extended thirty days longer on payment of $15 additional in San Francisco. Stop-over privileges will be allowed within the time limit or life of the G. A. R. tickets in either direction; but it must be borne in mind that, westward, these tickets will not be good for passage after date set for the commencement of the Encampment. Those purchasing such tickets and coming west early will enjoy a more comfortable trip, avoid the inconvenience of the crowd that will wait until the latest dates prior to the opening of the Encampment, and will secure longer time in California, giving opportunity to visit such localities as they may desire, and greater enjoyment of stop-over privileges. Railroad and steamship lines of the State and coast have expressed the intention to make reasonable reductions from local rates for individual, party or special train excursionists during the Encampment period; but, as such rates will depend upon the nature of the tours, combining rail, water and stage routes, it is impracticable to give them in detail at present.

Milwaukee Lager Beer.

MILWAUKEE, Wis., April 15th.—The disciples of the school of total abstinence may perhaps take some comfort by perusing the following table of statistics, from which it appears that the aggregate amount of beer sold by the Milwaukee brewers during the year 1885 shows a considerable falling off as compared with the sales of the next preceding year.

It will be noticed, however, that the old renowned Philip Best Brewing Company has to record a gain, and is still maintaining its proud prestige of being at the head of the column, while the sales of its principal competitor show a marked decrease.

The figures are vouched for as correct in every respect:

Has Used Them Forty Years.

R. S. Day, of Watsonville, Santa Cruz county, California, writes February 3, 1885: "When my wife was seventy-three years old she was troubled with a very bad cough, and it looked as if she would die with consumption. She would not call in a doctor, but commenced taking Brandreth's Pills, two and three every night. In three weeks she was completely cured, and her health is now very good, and am sure the Pills prolonged her life as well as my own, for I have used them forty years, and am now eighty-four years old. They have been my only medicine."

MARRIED.

Dentelles and Homespuns.

The French word for lace is *dentelle*. Hence, Dentelle Cloths are just what one would imagine them to be from the name—light, open-work stuffs in lace designs. They can be had in colors, including cream, and are not expensive. Sixty-five to ninety cents per yard will get excellent qualities, although some superfine grades in robe patterns come at higher prices. Speaking of new dress goods reminds us of Homespuns, which are nothing more or less than a revival of the ancient stuffs of our grandmothers. Coarse, rough and quite unfinished, these cloths are possessed of rugged virtues which make them favorites with those requiring strong and durable dresses for general house and street wear. They are said to "wear like iron," and will make excellent dresses for school girls and misses. Most of the homespuns come in dull shades, but there are some few exceptions. The prices range from 50 cents to $1 per yard. Those at 85 cents are particularly good.

Bird Cages.

Neatly Painted Square Cages, 75 cents, $1, $1 25, $1 50. The prices are fixed according to sizes.

Brass Cages, square shapes, $1 25, $1 50, $2 and $2 50 according to size.

Round Cages, painted, 40, 50 and 85 cents.

Brass Cages, round shapes, $1, $1 25 and $1 50.

We also keep Cuttle-fish, Birds' Nests, Springs, Brackets, Fish Holders, Cups, Perches, etc.

Shelf Paper, 24 sheets for 5 cents. Desirable colors.

We are showing a large collection of Ostrich and Turkey Feather Dusters, direct from the East. The sizes run from 7 to 24 inches, at prices ranging from 25 cents to $2. The Ostrich Dusters are fine and soft, and are therefore suitable for use on furniture, etc. The Turkey Dusters are more substantial, better adapted to general work and cost less.

Men's Buff-colored Shirts in stripes and checks, with wash ties to match. The Shirts are $1 25 and $1 40; the Ties, 25 cents per dozen.

Blood-Horse Races—Brewery Seized—Grand Lodge, K. of P.—Railroad Matters.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

CALIFORNIA.

Races of the Blood-Horse Association.

SAN FRANCISCO, April 15th.—The third day of the Blood-Horse races drew only a small attendance. The track was very heavy, it having rained during the entire sport. There was very little enthusiasm, as the races were of a tame order. The first race, selling purse, mile heats, was won by Mozart, who took the last two heats—Billy Ayres, the favorite, having captured the first. Best time, 1:49. In the second race, no stakes, three-quarters of a mile, for two-year-olds, fully half an hour was lost at the post before a start could be made. When they did get away Modesto and Graciosa were ahead, and remained so until the head of the stretch was reached, when Napa came out and won by a length, Modesto second, Robson third. Time, 1:20. The Cuyama stakes, handicap, all ages, one mile and a quarter, brought out Volante, Lucky B. and Garland, Binnette being scratched just before the start. It was an easy victory for Baldwin's entries, Volante coming in first, a length ahead of Lucy B., who was fully ten lengths ahead of Garland. Time, 2:17. The last race was the *Spirit of the Times* stake for three-year-olds, one mile and three-quarters. Only two horses came to the post, Ingleside and Preciosa being scratched. Ben Ali won easily from King Norfolk, second, by half a dozen lengths. Time, 3:20.

The Recent Advance in Passenger Rates.

SAN FRANCISCO, April 15th.—The Atlantic and Pacific Railroad yesterday paid out over $6,000 in rebates. The reason for the recent raise in rates between Kansas City and California is that the Atchison, Topeka and Santa Fe and Atlantic and Pacific roads cannot obtain Pullman and other cars enough to transport all the passenger traffic offered. The cars that are now running carry people who cannot find even seats, and who stand or lean for twenty-four hours or more.

Grand Lodge, Knights of Pythias.

SAN FRANCISCO, April 15th.—The Grand Lodge met at 10:30 o'clock this morning, Grand Chancellor Katzenstein presiding. After reading the journal of yesterday's proceedings and listening to several reports, the election of officers for the ensuing year was declared in order, T. F. Batchelder, of Eureka Lodge, No. 9, city, being unanimously elected Grand Chancellor, after which a recess was taken until 2 o'clock, when the remainder of the Grand officers will be elected.

[SECOND DISPATCH.]

SAN FRANCISCO, April 15th.—The remainder of the Grand officers were elected this evening as follows: Vice-Grand Chancellor, Frank H. Farrar, of Merced; Grand [illegible] H. A. Buckles, of Suisun; Grand Keeper of Records and Seal, John H. Harney; Grand Master of Exchequer, A. H. [illegible]age.

Annual Meeting of the State Viticultural Society.

SAN FRANCISCO, April 15th.—The State Viticultural Society began its regular annual meeting this morning at the rooms of the Viticultural Commissioners. The minutes of the last meeting were read and approved. An inquiry for the order of business as prescribed by the by-laws revealed the fact that there was no copy of any by-laws in existence. A committee was appointed by the President, W. H. [illegible], to prepare by-laws, and an adjournment was had till 2 o'clock, when the committee was to report.

Fire Aboard Ship.

SAN FRANCISCO, April 15th.—A fire was discovered in the hold of the British ship Arnguda, at section 3 of the seawall this morning, but was extinguished before much damage was done. The Arnguda recently arrived from Hongkong with a cargo of general merchandise.

A French Fleet at Tahiti.

SAN FRANCISCO, April 15th.—The schooner Pepeete arrived to-day from Pepeete, the capital of Tahiti, with a report that a French fleet was at Pepeete. The *Call* to-morrow will publish the following extract from a private letter received from Pepeete: "Several French vessels are now here, and there is a probability that the Leeward Islands will be brought under French protection, or fully annexed." Another letter on the same subject says: "The new French Admiral is here with three war vessels, and two more vessels are expected. It is believed that the Raiata, Huahime and Boratora Islands will be annexed to France."

Attempted Suicide of a Prisoner.

SAN FRANCISCO, April 15th.—Dennis Godfrey, a prisoner in the Oakland city prison, attempted to commit suicide by cutting his throat to-night. He is expected to die.

Supplanting Railroad Coolies.

MERCED, April 15th.—The Southern Pacific Railroad Company is now employing a large number of men on the Visalia division as extra track hands. They employ white men only. The section men at all the principal towns, including Modesto, Merced and Fresno, heretofore Chinese, are now being replaced by white men, and, as soon as is convenient, the entire Celestial force will be allowed to seek other fields of labor. The Chinese have received $1 per day. The white men now being put to work will be paid 15 cents per hour for each day averaging eleven hours. Inquiry at the office of the Roadmaster of the division at this town discloses the fact that the men so far procured are of an excellent class, and are steady and industrious.

A Magnanimous Husband.

SANTA CRUZ, April 15th.—There was a peculiar case in Justice Curtis' Court this morning. Bert Hollenbeck went home the other evening and found his wife lying on a bed and Sidney Brown bathing her head in vinegar. Hollenbeck entered a mild protest, when Brown struck him over the head several times with a chair. Brown was arrested, and fined $25 this morning. Hollenbeck then went home, got a horse and put it in pawn so as to raise money enough to pay Brown's fine. Hollenbeck's father was an old Santa Clara county pioneer, who left a large estate, which, through lawsuits, has been considerably reduced.

Santa Cruz and the K. of P.

SANTA CRUZ, April 15th.—Extensive preparations for a grand reception to the Grand Lodge of Knights of Pythias, who will arrive in this city next Saturday evening, are being made. The programme includes a reception and ball at the Pacific Ocean House.

Brewery Seized by Revenue Officers.

VALLEJO, April 15th.—Deputy Revenue Collector Leake and specials B. W. Thomas and John Webb, of San Francisco, to-day seized the Pioneer Brewery of Edward McGettigan. The cause was that the stamps on the beer kegs were not wholly destroyed, but left in a condition to be used a second time. They were so used. McGettigan is now in Washington. His agent, John Mason, has agreed to furnish bonds in order that the business may continue.

Anti-Chinese Mass Meeting.

VISALIA, April 15th.—An anti-Chinese mass-meeting is being held here this evening. N. F. Ravlin, State Organizer, is addressing the meeting. The hall is crowded, and the audience enthusiastic.

Coroner's Inquest—Mild System of Boycotting.

MERCED, April 15th.—Coroner Bradley to-day held an inquest on the body of the man found dead in Merced river Wednesday. The jury rendered a verdict that deceased was a Chinaman, and that his death was probably caused by drowning. The body was badly swollen, and had probably been in the water several weeks.

At the regular meeting of the Merced Anti-Coolie League, held last night, a very mild system of boycotting was adopted. A resolution was passed providing for the establishment of a White Labor and Intelligence Bureau. The duty of said bureau is to ask all persons in the county employing Chinese to at once inform said bureau the number of Chinese in their employ, the several capacities in which they are engaged, and the compensation they receive; also, whether or not they will discharge such Chinese, and take in their places competent, reliable white or colored help, supplied by such bureau; also, the rate of wages they will pay such white or colored help.

An Old Man Convicted.

LOS ANGELES, April 15th.—Jesse Evans, aged about 60, was to-day tried and found guilty of rape, committed about a month ago on a child 9 years old. Sentence was set for the 19th instant.

Chinese Stabbing Affair.

SAN JOSE, April 15th.—At Cornthwait's ranch, near Alviso, about 5 o'clock this evening, a Chinaman named Ah Gee, during an altercation with a fellow-countryman, fatally stabbed the latter in the neck. He was surrendered to the officers in this city by Mr. Cornthwait. It is believed the wounded man will die.

OLD MEXICO.

Mexicans and Indians.

GUAYMAS, April 15th.—Two skirmishes with the Yaquis have occurred this week, resulting in the defeat of the troops, with a loss of three killed and eight wounded, and the Indians captured the arms, ammunition and baggage of the Mexican outposts three leagues from the Indian fortifications. Workmen on the telegraph line were chased into camp near Carizo, and were furnished a guard for safety. The Mexicans have 2,000 soldiers, and Cajaime is reported to have 4,000 Indians. A general advance will be made on the 17th. Opuris advices state Apaches are raiding, and troops are in the Sierra Madre mountains after Geronimo.

OREGON.

A "Doctor" Found Guilty.

PORTLAND, April 15th.—The trial of Dr. A. Geismardo, for rape on one of his patients named Mrs. Smith, began yesterday in the State Circuit Court, and went to the jury late last night. They returned a verdict of guilty to-day. The time for sentence has not yet been fixed. Geismardo came here about four weeks ago, and advertised as a magnetic physician. He went on the stand in his own behalf, and upon cross-examination acknowledged that he had never attended a medical lecture in his life, was not a graduate of a medical college, and knew nothing of the properties of the medicine which he administered.

Millions of dollars are supposed to be at stake in a sensational suit about to be commenced at Reading, Pa. An aged woman, a daughter of the millionaire, Valentine Probst, confessed on her deathbed that when her father died, in 1854, she stole a lot of deeds and other papers, and conveyed them to a man who was thus able to maintain a fictitious show of right to property that has now become very valuable.

Best Goods are Put in Smallest Parcels.

The old proverb is certainly true in the case of Dr. Pierce's "Pleasant Purgative Pellets," which are little, sugar-wrapped parcels, scarcely larger than mustard seeds, containing as much cathartic power as is done up in the biggest, most repulsive looking pill. Unlike the big pills, however, they are mild and pleasant in their operation—do not produce griping pains nor render the bowels costive after using.

Respectable Druggists

NEVER DECEIVE THE PUBLIC, BUT BEWARE of the Cheap John druggists who offer you a plaster called "Capsicum," "Capsicin," "Capucin," or "Capsicine," and tell you it is substantially the same as the genuine Benson's Capcine Plaster, or even better. They ask less for the imitation, for it costs less, but as a remedial agent it is absolutely worthless. The reputation of Benson's as the only plaster possessing actual and high curative qualities is the result of many years' experiment and honorable dealings on the part of the proprietors; and 5,000 physicians, pharmacists and druggists indorse it as the best ever made. Protect yourself against deception by buying of reputable dealers only, and avoid mistakes by personal examination. The genuine has the "Three Seals" trademark, and in the center is cut the word "Capcine." d7-6mMWF&w6m

IN THE SUPERIOR COURT. STATE OF CALIFORNIA, county of Sacramento. In the matter of the petition of WALTER M. ADAMS, an Insolvent Debtor. Order of Adjudication and Notice to Creditors. Upon reading and filing the petition, schedule and inventory of WALTER M. ADAMS, the above named petitioner, and on motion of George E. Bates, his attorney, it is ordered and declared that said petitioner is insolvent. And it is ordered that the Sheriff of the county of Sacramento do take possession of all the estate, real and personal, of said insolvent debtor (except such as may be by law exempt from execution), and of all his deeds, vouchers, books of account and papers, and keep the same safely until the appointment of an assignee. And all persons are forbidden to pay any debts to said debtor, or to deliver any property belonging to such debtor to him, or to any one for his use, and said debtor is forbidden to transfer any property to any one except said Sheriff. And it is further ordered that a meeting of all creditors of said debtor be held on FRIDAY, the 14th day of MAY, 1886, at 10 o'clock A. M., at the Court-room of Department No. 1 of the Superior Court aforesaid, in the Court-house, in the city of Sacramento, to prove their debts and choose one or more assignees of the estate. And that a copy of this order be published in the SACRAMENTO DAILY RECORD-UNION, a newspaper of general circulation, as often as said paper is published before the day set for the meeting of creditors. And all proceedings against the said insolvent are hereby stayed.
Sacramento, April 7, 1886.
W. C. VAN FLEET,

SAN FRANCISCO MARKET.

SAN FRANCISCO, April 15th.

FLOUR—Moderate movement. We quote: Best City Extra, $4 25@4 50; medium, $3 50@4; shipping superfine, $2 75@3 75 ⅌ bbl.

WHEAT—The market moves along in quiet fashion at former prices. There is good demand, but trading is not quick, as sellers do not offer liberally. Quotable at $1 33¾@1 35 ⅌ ctl for good to choice shipping.

The London circular of Harris Bros., under date of March 25th, says: "Wheat, since our last, has been flat, home-grown supplies have been fair, but foreign has not come in fast, till the last day or so, when south winds have brought several cargoes of white sorts to ports of call; prices on the spot off stands show but little change, as demand has been small, but holders have not forced sales, in the face of lessened stock in store throughout the U. K.; cargoes off coast are lower, yet are fairly well bid for, and some seem wanted for the Continent."

Call Board sales at the morning session of the San Francisco Produce Exchange were as follows:

Buyer season—100 tons, $1 35⅛; 100, $1 35⅛; 1,000, $1 35⅛.
Buyer 1886—100 tons, $1 36; 800, $1 36⅛; 1,000, $1 36⅛; 900, $1 36⅛.
Seller 1886—100 tons, $1 23; 800, $1 23¼ ⅌ ctl.
Afternoon sales were:
Buyer season—600 tons, $1 35¼.
Buyer 1886—400 tons, $1 36; 500, $1 36⅛.
Seller 1886—700 tons, $1 23; 900, $1 23⅛ ⅌ ctl.

BARLEY—Steady and unchanged, with fair volume of trade. Feed is quotable at $1 35@1 37½ ⅌ ctl. The demand for Brewing is continuous, and stock changes hands with good freedom, transfers ranging in price from $1 42½ to $1 52½ ⅌ ctl.

Call Board sales at the morning session of the San Francisco Produce Exchange were as follows:

Buyer 1886—100 tons, $1 30 ⅌ ctl.
Afternoon sales were:
Seller 1886—100 tons, 88c ⅌ ctl.

OATS—Movement not specially lively. Still there is enough trade to keep dealers fairly busy. We quote: Surprise and milling, $1 40 to $1 45; No. 1, $1 25@1 27½; common grades, $1 17½@1 2¼ ⅌ ctl.

CORN—Sales are light in volume. We quote: California White, $1 15@1 20; large Yellow, $1 05@1 10; small Yellow, $1 20@1 22½; Nebraska and Kansas, mixed, 90@95c; do, Yellow, $1@1 05; Kansas White, $1@1 10 ⅌ ctl.

SEEDS—We quote: Mustard, $2 25@3 25 ⅌ ctl for Brown, and $5 25 for Yellow; Canary, 4@4½c; Hemp, 5@5½c; Rape, 1@1½c; Timothy, 5½@6c; Alfalfa, 10½@11c ⅌ lb; Flax, $2 25@2 50 ⅌ ctl.

HAY—We quote: Wheat, $12 50@15; Oat, $12@14; Barley, $10@12; Mixed, $10@12 ⅌ ton.

HOPS—Quotable at 5@7c ⅌ lb.

RYE—Asking prices range from $1 32½ to $1 35 ⅌ ctl, as to quality.

BUCKWHEAT—Nominal trade. Quotable at $1 20 ⅌ ctl.

POTATOES—Active demand at steady prices. We quote as follows: New Potatoes, $2 25@2; Early Rose, 50@75c; River Reds, 30@40c; Tomales, 40@50c; Petalumas, 40@50c; Peerless, 60@75c; Humboldt Reds, 60@75c; do Kidney, 60@70c; Peachblows, 70@90c; Oregon Garnet Chile, 50@75c; Burbank Seedlings, $1 25 ⅌ ctl.

ONIONS—Quotable at 3@4c ⅌ ctl for fair to choice California. Cut onions drag at $2@2 50; Eastern, $3 50@4 50 ⅌ bbl.

BEANS—No change for the better. Bayos, $1 25@1 40; Butter, $1 50@1 75; Pink, $1@1 15; Red, $1@1 10; Lima, $2 30@2 60 for good to choice; Pea, $1 60@1 80; Small White, $1 60@1 80 ⅌ ctl.

VEGETABLES—Scarcely 300 boxes of Asparagus arrived this morning. Prices rule steady, but it is not expected that values can be further advanced, as such action would more than likely check consumption, and leave dealers with surplus on hand. There are some poor lots that come to market that have to be sold under our lower figure, while occasionally a single box or so changes hands at a trifle above our top quotation. Green Peas are in heavy supply, the receipts to-day being in the neighborhood of 700 bags. String Beans do not come forward freely. We quote as follows: Asparagus, $1 75@2 25 ⅌ box; Green Peas, $1@1 25 ⅌ sk; String Beans, 15@18c ⅌ lb; Rhubarb, 6@8c ⅌ lb; Cucumbers, 40c@$1 ⅌ dozen; Los Angeles Green Peppers, 15@20c ⅌ lb; Egg Plant, 10@12c ⅌ lb; Tomatoes, $3@4 ⅌ box; Artichokes, 20@25c ⅌ doz; Carrots, 40@50c ⅌ ctl; Turnips, 75c@$1 ⅌ ctl; Beets, 60@75c ⅌ ctl; Parsnips, $1 50 ⅌ ctl; Cauliflower, $1@1 25 ⅌ dozen; Cabbage, $1 25@1 50 ⅌ ctl; Garlic, 35@40c ⅌ lb; Celery, 50@60c ⅌ dozen; dry Peppers, 10c ⅌ lb; dry Okra, 15@17½c ⅌ lb; Marrowfat Squash, $20@25 ⅌ ton; Summer Squash, 8@10c ⅌ lb.

FRUIT—Oranges are poorly represented at the moment. The wet weather keeps back supplies. Strawberries find ready sale if in order, but there is a fair proportion of consignments that are muddy and soft, and almost worthless in value. Eastern Apples go slowly. Raspberries, $1@2 ⅌ drawer; Strawberries, $10@20 ⅌ chest; Oranges, California, $2 25@3 for ordinary stock, and $3 50@5 ⅌ box for Navel; Apples, California, 50c@$1 ⅌ box; Eastern do, $1 50@2 50 ⅌ bbl for Baldwin, $1 50@3 ⅌ bbl for Greenings, and $3@3 50 ⅌ bbl for Russets; Mexican Limes, $9 50@10; do, California, $1@2 ⅌ box; Lemons, Sicily, $5 50@6; do, California, $1 75@3 ⅌ box, according to quality; Bananas, $1 50@3 ⅌ bunch; Pineapples, $3 50@5 ⅌ dozen.

DRIED FRUIT—Sun-dried Apples 1½@2c ⅌ lb for sliced and 1½@2c for quartered; Allen and Plummer, 6@7c; Apricots, 6@7c; Blackberries, 9@10c; Figs, 5c for pressed and 2c for unpressed; Smyrna do, 18@20c for layers, and 12½c for kegs; Nectarines, 6c; Peaches, 8@9c for peeled, and 4@5c unpeeled; Pears, 2c for whole and 5c for sliced; machine-dried, 8@10c; Plums, 4@5c for pitted and 1½c for unpitted; German Prunes, 4c; French Prunes, 6¼@7½c ⅌ lb; Raisins, $1 75@2 ⅌ box, with 25c advance for fractions.

HONEY—We quote as follows: Comb, 9@10c; do white to extra white, 11@13c; Extracted, choice to extra white, 5@5½c; do, amber-colored, 4½@5c; do. dark-colored, in order, 4@4½c ⅌ lb.

BUTTER—The market continues to be well stocked. Prices unchanged. We quote as follows: Fancy, 18@19c; choice, 17@18c; good, 15c; fair, 14c; mixed lots, 12@13c ⅌ lb; Eastern, 8@11c ⅌ lb.

CHEESE—Easy in tone. We quote: California, choice, 9@10c; fair to good, 5@8c ⅌ lb; New York Creamery, 12@14c ⅌ lb.

EGGS—No buoyant feeling. Quotable at 17@18c ⅌ dozen for California, and 14@15c for Eastern.

POULTRY—Prices of many descriptions continue to strengthen. There are many miserable specimens of Broilers being sent to market that nobody will buy at over $4 ⅌ dozen. Such stock does not warrant a quotation, being misleading. Young Roosters and choice Hens are in good request. We quote as follows: Live Turkeys—Gobblers, 16@17c; Hens, 17@20c ⅌ lb; dressed Turkeys, 17@20c; Roosters, $6@6 50 for old and $10@12 for young; Hens, $6@8; Broilers, $6@8 50, as to size; Ducks, $5@7 ⅌ dozen; Geese, $2@2 50 ⅌ pair; Goslings, $2 50@3 50 ⅌ pair.

GAME—We have dropped our Duck quotations, there being no good stock coming to market and next to no inquiry for it. We quote: Hare, $1 25@1 50; Rabbits, $1@1 25 ⅌ dozen.

PROVISIONS—Eastern Hams 11@11½c ⅌ lb for Magnolia, Four Ace, Dupee's and Whittaker's; other brands, 10½@11c; California, 8@10c for salt and sugar-cured; Eastern Breakfast Bacon, 12@12½c; California Bacon, 7½@8c for heavy and medium, 9@10c for light and 11½@12c for extra light; Clear Sides, 9@9½c ⅌ lb; Pork, $9@10 for extra prime, $12 50@13 for prime mess, $13@14 for mess, $14@15 for clear, $14 50@15 50 for extra clear; Pigs' feet, $11 50@12; Mess Beef, $8@9 for bbls, $5@6 for hf bbls; Extra Mess Beef, $10@11 for bbls, $6@7 for hf-bbls; Family Beef, $15@16 ⅌ bbl; California Smoked Beef, 12@12½c ⅌ lb; Eastern Lard, 7@7½c for tierces, and 8¼@9c ⅌ lb for pails; California do, 10-lb tins, 6½@7c; 5-lb tins, 7½@7½c; pails, 8½@9c for 10-lb, 8¾@9c for pails, and 9¼@9¾c for 3-lb pails.

WOOL—Spring clip is quotable as follows: Short staple, free, 14@17c; long staple, 14@16c ⅌ lb.

FRESH MEAT—Following are rates for whole carcasses from slaughterers to dealers: Beef—First quality, 6¼@7¼c; second quality, 6c; third quality, 5½c. Veal—Large, 7@8c; small, 7@9c ⅌ lb. Mutton—Quotable at 5@5½c ⅌ lb. Lamb—Quotable at 5½@6c ⅌ lb for Yearlings; Spring, 9@10c ⅌ lb. Pork—Live Hogs, on foot, 2¾@4½c; dressed do, 5½@6½c ⅌ lb.

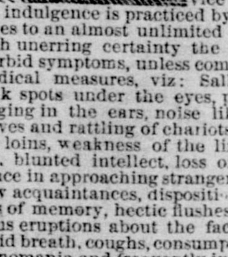
TO THE UNFORTUNATE
DR. GIBBON'S DISPENSARY,
623 Kearny street, San Francisco.



Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, Skin Diseases, etc., permanently cured or no charge.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fœtid breath, coughs, consumption, night sweats, monomania and frequently insanity.

CURED AT HOME.

Persons at a distance may be cured at home by addressing a letter to DR. GIBBON, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing ten dollars in registered letter, through the Postoffice, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union. The Doctor cures when others fail. Try him. Mention the RECORD-UNION. Address DR. J. F. GIBBON,

Bidders are required to specify the kind of coal, by naming the mine from which it is taken, or using the name by which it is designated in commerce; 2,240 pounds will be required for a ton, the coal to be weighed in Stockton at the expense of the Asylum, on scales licensed and employed for public use.
80 tons, Wellington Coal, to be delivered as ordered.

The above-named articles are all to be of the best qualities, subject to the approval of the Medical Superintendent, and to be delivered at such times and in such quantities as he may desire. And it is expressly understood that if a greater quantity of any article than above mentioned shall be needed and required by the Medical Superintendent, the same shall be furnished by the contractor at the contract price. The different contracts will be awarded to the lowest responsible bidder, and no bid will be considered unless accompanied with a written guarantee, signed by at least two responsible persons, that the party making the proposal will enter into contract and furnish bonds for the faithful performance thereof, provided the contract is awarded to said party.

The Board reserves the right to reject all bids deemed too high, or otherwise unsatisfactory.

Parties to whom all contracts shall be awarded shall file bonds with the Secretary, N. M. Orr, on or before May 1, 1886.

Separate bids will be received for:
Groceries and Provisions;
Coffee and Tea;
